

20-Panel Daisy-Chain Example

3-pole mains distribution with integrated T-connector and 2 m male/female interconnection cable

20-PANEL WORKING EXAMPLE

This example shows a linear run with 20 Lineva U19 panels connected via T-connectors and 2 m interconnection cables.

CIRCUIT ISOLATED

Connect or disconnect only when the circuit is isolated.

QUALIFIED ELECTRICIAN

Final circuit design, cable sizing and protection must be verified by a qualified electrician in accordance with local regulations.

LEGEND

- Mains daisy-chain (L / N / PE)
- T T-connector branch to luminaire
-  LED panel (Lineva U19 panel)
